IMPORTANT UPDATE

Important CFS update

Please be advised that contrary to earlier announcements we decided to move only a part of our Deep-Sea LCL destinations to our new CFS Speedfreight as per July 1st, 2006.

Therefore please note that until further notice, CFS Hollandsveem, will continue to be our CFS for all USA LCL destinations. Please also note that all cargo for West Africa must be delivered at LCR.

In short, export LCL destinations must be delivered as follows:

- LCR : Short Sea / Mediterranean Sea / West Africa / Port of Spain
- Hollandsveem : USA
- Speedfreight : Deep Sea destinations (except USA / West Africa / Port of Spain)

Please carefully follow the instructions on our booking confirmations and / or our Customer Service and Planning department in regards to your LCL deliveries. All CFS addresses can be found on the second page of this Cleve Bulletin.

Anniversary

On the 6th of June we celebrated the fact that Thea de Jong has been working for our company for 5 years. Thea is working in our import department. With her 71 years of age, she is one of the oldest persons within our company, but is still going strong and is enjoying her young colleagues.

Airfreight promo

This month Taipei (airport) has been chosen as our special airfreight destination. Please contact Ms. Minouche Ros in order to receive a special promo rate for your shipment (> 100 kgs)

T: 0031-10-4284781
E-mail: m.ros@cleve.nl

ISPM 15 Uruguay

Uruguay will also start to implement the ISPM 15 rule, this means that all wooden packaging must be treated and certified.

If the shipments do not accomplish with this rule, they must be returned to origin or have to be destroyed for account of shipper.

Textile products

We noticed that an increasing number of shipments of textiles arrive in Rotterdam without the necessary licences and certificates. For all textile products under HS codes 5001 till incl. 6310, originating from Far Eastern countries, Indonesia, USA and Canada a Certificate of Origin is necessary to import these commodities into the European Community.

On top on this Certificate of Origin, for shipments from China an Export Licence for textile products is needed for textile commodities for: Cat. 2, 4, 5, 6, 7, 20, 26, 31, 39 and 115.

In case of missing certificates and licences the shipments cannot be cleared. Any fines related to missing documents, will be charged to the shipper.

Kind requests regarding CFS deliveries

We kindly request you to deliver your shipments to our warehouse in time in order to guarantee loading of your shipment. Our closing dates are mentioned in our sailingschedule and the opening hours of our warehouses are mentioned at this page.

Furthermore we would like to draw your attention once more to the fact that wooden packing material has to be in line with the ISPM 15 rule. If this is not the case we cannot guarantee timely shipping of your cargo. Please be advised that the shipper is responsible for the packing.

Next to the above mentioned we request you to provide us with your B/L instructions and proper IMO documentation, if applicable, in time.

New legislation for exports to Mexico

Please note that Mexico is in the process of introducing new legislation, very similar to the USA (AMS filing) and Canada (ACI filing). However, at this stage final wording and exact obligations are still unavailable. Right now the new ruling is to be effected as from August 1, 2006, but there will be changes and probably a postponement by a couple of weeks.

For this moment, what is clear, is that our agent in Mexico will have to do the filing with the Mexican authorities. The filing must take place before departure of the cargo from any foreign port for Mexico.

Therefore we request you to inform us about all consignee details. We need the full address, phone-number and faxnumber of the consignee at least 24 hours before sailing from Rotterdam. If this information is not available or incorrect, a correction to the filing has to be made. Possible fines related to this correction will be charged back to the shipper.

In the next couple of weeks, we will send you more information regarding this new legislation.

New tariffs as per July 1st, 2006

As per July 1st, 2006 the rates have been updated. Your company should have received the rates for the third quarter already. These tariffs are valid till September 30, 2006. Please make sure you will use our new rates as from July 1st, 2006.

Please take notice of our renewed U.S. inland rates as these are decreased. We hope to have provided you with attractive rates, in order to make use of our services. If you require more information in relation to our tariffsheets, please send your request to tarief@cleve.nl

Reminder: New Service

Please note that we have just recently started a new direct LCL service to Vitoria, Brazil. Please find our rate in the new tariff sheet for the third quarter or contact our Customer Service department.

Unfortunately, we can not accept any kind of personal effects, as the warehouse in Vitoria does not accept this type of cargo anymore.

Personal effects will still be accepted for other Brazilian ports.

Did you know...

- that our sailingschedule can also be found on our website ?
- that you can track and trace all your shipments online ?
- that you can send your rate requests online as well ?
- that you can even submit your booking through our website ?
- that you can find all previous Cleve Bulletins at our website ?
- that www.cleve.nl is our internet address.

THANKS FOR YOUR SUPPORT !
