Spotlight on Port of Spain

Cleve & Zonen offers you a fortnightly, direct, consolidation service from Rotterdam to Port of Spain.

As leaders in the industry in Trinidad, our long time partners Cargo Consolidators Agency (CCA) partnered with another local company named Aviation Business Ltd (ABL) to open the first 24 hr / 7 days per week customs warehouse for storage & delivery of LCL & Airfreight cargo.

All Cleve & Zonen's full LCL Containers that come through CCA are removed from the port and taken to ABL Warehouse & unstuffed within 3 working days of discharge from vessel. Importers can clear their goods any time day or night, weekends & public holidays and pay no overtime charges for customs or warehouse services. For any enquiries, please contact our Customer Service staff, any time.

Anniversary

On the 1st of June we celebrated the fact that Marc Deckers has been working for our company for 5 years. He started to work at our import consolidation department. Marc is working at our export forwarding department for several years now. He grew from schoolboy to serious man doing a very good job !

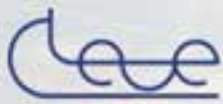

New LCL service to Reykjavik

We are pleased to announce that we have launched a new direct consolidation service from Rotterdam to Reykjavik, together with our agents Global Cargo.

We are confident that our fast service to Iceland (transit time is only 5 days) is an interesting addition to our existing direct LCL services and we look forward to your good support.

Please contact our Customer Service department to obtain service details as well as competitive rates.

Export transshipments via USA: ISF (10+2)

The Importer Security Filing ,also known as "10+2",was introduced in January 2008 and is designed to strengthen cargo security by making CBP(U.S.Customs and Border Protection) screening more efficient and effective and will improve CBP's ability to target high risk cargo by identifying actual cargo movements.

The ISF filing for cargo with POD in the U.S.A. is the responsibility of the party responsible for importing the cargo in the USA.Usually this will either be the actual importer or their Broker,Freight Forwarder.Cleve ,nor their U.S. agent will be responsible.

However for cargo In Transit via any USA port,including so called FROB (Freight Remaining On Board),the ISF filing will be the responsibility of the party performing this service.For instance via Miami to the Caribbean.

Accordingly please be advised that for LCL shipments we ship in Transit via any U.S. port to an outside U.S. destination,Cleve will do the ISF. by making it an integrated part of our already existing AMS filing.This integrated filing systems is known as ISF5.

For any questions,please call our Customer Service desk.

DG cargoes via Singapore

Effective immediately, carriers to Singapore have increased the DG surcharge for IMO cargoes shipped via Singapore. Previously, carriers absorbed a substantial part of the actual PSA expenses, but they no longer do.

Depending on the PSA class of your shipment (I, II or III), we will charge the same to you. This applies for destinations which are shipped via Singapore consols as a standard (see our tariff) as well as to destinations for which we build direct consols, but are transhipped by the carriers in Singapore (Jakarta – Manilla – Bangkok - Ho Chi Minh). Please check with our Customer Service Desk upon booking, case by case.

Orange fever in our office

The soccer world cup is coming to an end ! Nobody can escape this worldwide event. Within our office several departments are coloured in orange. The Dutch national team reached the semi final after beating the worldchamp favourite Brazil !
