IMO CARGO TO DOHA, QATAR
SHANTOU SERVICE TEMPORARILY SUSPENDED

HAPPY HOLIDAYS

The management and staff of Cleve & Zonen wish you a Merry Christmas and a healthy, prosperous 2011. We are grateful for your support in 2010 and we hope to even further develop our current relationship with you in the new year.

HAZARDOUS CARGO TO XINGANG

As a result of new policies adopted by the Xingang Port Authority it is no longer possible to send IMO goods to Xingang by LCL. Alternatively, we can offer you the possibility to ship IMO goods by FCL.

ISPM15 FOR EU COUNTRIES

We once more urgently draw your attention to the fact that for all non EU originating shipments entering the countries of the European Community, the Wood Packaging Materials (WPM) must show the original WPM ISPM15 mark as proof of heat treatment or treatment with Methylbromide.

This rule has been in effect since September 2005.

By means of a recent notification letter by the Dutch Food and Drugs Administration (FDA) we were reminded that inspections will take place more frequently following the discovery of a specific Asian Beetle. Meanwhile we had a visit at our inbound CFS from a FDA official checking on WPM identification marks.

Non compliance will result in the shipment being returned to the originating country outside the EU or destruction of the shipment or treatment at a designated area. Any additional expenses, as a result of one of the above decisions, will be for the account of the shipper.

Please remind your clients accordingly.

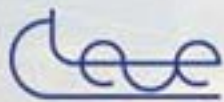

BANNED COMMODITIES NIGERIA

Please be informed that the list hereunder covers commodities which are temporarily banned from importing into Nigeria:

Toxic waste, second hand electronics, second hand televisions, used compressors, used air-conditioners, used freezers / refrigerators and used computers.

Non compliance will result in the arrest of carrier's vessels and / or crew by NESREA (National Environmental Standards and Regulations Enforcement Agency), that are charged with the responsibility to protect and develop the environment in Nigeria.

Any costs that arise will be charged to the shipper.

CLEVE BULLETIN - DECEMBER 2010

REMINDER: ISPM15 FOR MALAYSIA

Although the ISPM15 regulations have been implemented in Malaysia as per January 2010 already, our agent in Port Kelang has informed us that the Department of Agriculture in Malaysia will now start to fine importers / exporters that fail to comply with the ISPM15 requirements. If necessary, goods will be returned to the country of origin or will be destroyed in Malaysia.

IMPORTANCE OF MARKS & NOS

Please make sure that the actual marks and numbers on the packages are the same as in your B/L instructions. Discrepancies may result in delays during customs clearance or may lead to customs penalties, which will be for the account of the shipper and/or consignee in the POD.

Correct marks and numbers, including port marks will avoid possible mix-up of cargoes as well.

IMO CARGO TO DOHA, QATAR

Doha Port Authorities have recently adopted more strict regulations for dangerous goods arriving in Doha port. As a consequence, all dangerous goods will be discharged on direct delivery basis only.

Consignees of hazardous LCL cargoes are required to collect their cargoes at the time of container de-stuffing.

If a consignee is facing delays in obtaining approval from the relevant government authorities, they are requested to inform the Director of Port Operations accordingly.

SHANTOU SERVICE SUSPENDED

Please be informed that due to new Customs regulations in Shantou, it is temporarily not possible to send LCL shipments from Hong Kong to Shantou. Unfortunately we cannot accept cargoes for Shantou till further notice.
