COVERAGE IN EAST EUROPE / BALTIC / CIS

With the recent addition of our weekly LCL services to and from Prague and Vilnius, Cleve & Zonen now has an excellent coverage in East Europe, Baltic countries and CIS countries.

Our new import- and export services from and to Prague and Vilnius, also give us the possibility to extend our overseas services at a very competitive rate.

Whether you require a service from Wrocław to Xingang or from Buenos Aires to Kiev, be sure to check with Cleve & Zonen and see what solutions we can offer.

IMPORTANCE OF A CARGO INSURANCE

We would like to draw your attention to the importance of a cargo insurance for import and export shipments. Such an insurance is often considered to be unnecessary, cost increasing or is simply forgotten.

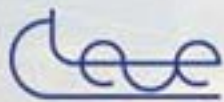

However, in case of damage, loss or other irregularities most parties involved in the transport chain only have a limited liability, which may ultimately result in a financial loss for the cargo owner.

Of course our agents and subcontractors will always handle all goods with utmost care and try to minimize risks, but unfortunate incidents can happen.

Therefore we would recommend you to always arrange an all risk cargo transport insurance. Not only for export shipments, but also for import shipments.

Note: import shipments are most of the times insured on CIF Rotterdam term, which is arrival up to port of Rotterdam, meaning that all activities from unloading up to house delivered are not insured!

We can provide port-port or door-door all risk insurance against very competitive rates. Our customer service department will be pleased to provide you with all the relevant information, possibilities and rates.

COMMERCIAL INVOICE FOR COSTA RICA

Our agent in Costa Rica has informed us that it is absolutely necessary to send them a commercial invoice for every single shipment.

Without all commercial invoices, it is impossible to move the container from CY Puerto Limon to the CFS in San Jose.

THE IMPORTANCE OF MARKS & NUMBERS

Please make sure that the actual marks and numbers on the packages are the same as in your Bill of Lading instructions. Discrepancies may lead to customs penalties, which will be for the account of the shipper or consignee in the POD.

Correct marks and numbers, including port marks, will avoid penalties and possible mix-up of cargo.
